Dear FCC,
I have recently learned that the FCC is considering NAB's petition 04-160. I am currently an XM Satellite Radio Subscriber that benefits from listening to traffic and weather channels provided by XM.

Satellite radio provides programming variety and quality that are not available elsewhere. The services and programming I receive from satellite radio I have chosen to pay for and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support satellite radio's ability to provide the kind of programming that I demand and deserve.

Sincerely,
Kent Scandrett
